SweetPlex™

COMPREHENSIVE SWEETENER SOLUTIONS

Complex Sweetness. Simplified.

SweetPlex™ brings together sweetness and formulation expertise in one complete portfolio. From individual sweeteners to optimized combinations, we help take the complexity out of sugar reduction with sweetener systems tailored to your application, from sweetness intensity to mouthfeel.

BUILT FOR MULTIPLE FORMATS

GUMMIES | RTD | SACHETS | LIQUID POUCHES

WHY SWEETPLEX™ ?

Stevia

Natural high-intensity sweetener from Stevia rebaudiana leaves.

Sucralose

High-intensity sweetener made from sugar.

Monk Fruit

Natural zero-calorie sweetener from Luo Han Guo Fruit.

Thaumatin

Sweet protein from katemfe fruit. 2,000x sweeter than sugar with flavor-modifying properties.

Brazzein

A natural sweet-tasting protein from Pentadiplandra brazzeana. Exceptionally heat-stable (up to 98°C).

Allulose

Rare sugar with 70% of the sweetness of sucrose. Low-calorie, excellent bulking & browning for baking.

Tagatose

A naturally occurring rare sugar with 92% sweetness of sucrose. Tagatose delivers a distinct caramel-like flavor profile.
